

OPERATIONS DIRECTORATE SUPPORT OFFICERS MEETING

24 October 1973

1. Credit Union Statements. The Credit Union is now in the process of distributing the quarterly statements, using the financial codes to help in sorting. They have asked that we bring to your attention the fact that code numbers with the last three digits being 899 or 890 means that the employee is in transit. Consequently, the number does not identify the station. You might pass this along to your Personnel Officer or whoever is doing the sorting.

5. The Office of Logistics has a draft dispatch in circulation regarding lead times for the delivery of American manufactured vehicles. Federal agencies are required to process vehicle needs through the GSA which in turn, for cost advantage purposes, submits bulk procurement orders to the manufacturers. Overseas stations should anticipate 9-10 months lead time for sedans and station wagons. In a justifiable emergency [REDACTED] can be procured in 10-14 days with an increase in cost up to 25 percent.
